

JOES POND

Rumford, Oxford County
U.S.G.S. Rumford, Maine (7½')

Fishes

Chain pickerel
Hornpout (bullhead)

American eel

Physical Characteristics

Area - 15 acres

Maximum depth - 4 feet

Temperatures:

Surface - 70°F

4 feet - 70°F

Principal fishery: Chain pickerel, hornpout

Joes Pond is a shallow pond located on the east side of Glass Face Mountain. A small inlet enters the north end of the pond and its outlet flows southeast into the Androscoggin River. The pond's shoreline is undeveloped.

Water quality in Joes Pond is poor for coldwater gamefish. Water temperatures reach critically high levels at all depths during the warm summer months. This shallow, weedy pond is well suited for pickerel and hornpout. The pond is not stocked.

Joes Pond is accessible via a dirt road off the Isthmus Road. The pond is open under general law in both the summer and winter fishing seasons. See the lawbook for additional regulations.

Surveyed - August, 1977

Resurveyed - July, 2001
